Objective:

Seeking challenging opportunities to utilize my skills for organizational success. Hard- working, goal-oriented and a team player, eager to contribute and make a positive impact. Committed to leading teams with a positive attitude and providing clear guidance.

Education:

- Nandha Arts and Science College (BC A - Computer Application) – 84.45%
- Jaivabai Girls Higher Secondary School (HSC) – 78%
- Jaivabai Girls Higher Secondary School (SSLC) – 61%

Technical Skills:

SQL:

- Knowledgeable in database, including **DBMS** and **RDBMS**, adhering to **E. F. Codd's rules**.
- Thorough practice on performing **CRUD** operations. Good Understanding of RDBMS concepts like **Constraints**.
- Solid Knowledge of **SQL Joins** (Cartesian Join, Inner Join, Outer Join, Self-Join, Natural Join).
- Good Knowledge of **DDL, DML, DCL, TCL** and **DQL**, Hands-on Experience on **Oracle Database**.

Core Java:

- Knowledgeable in Java **Tokens, Operators** and experienced in implementing **decision-making statements**.
- Familiar with **type casting, methods, array handling** and manipulation in java.
- Knowledgeable in **class members, constructors, access modifiers** for controlling visibility and access.
- Strong understanding of **object-oriented programming concepts, String class and wrapper classes**.
- Knowledgeable in **handling exceptions** and implementing exception handling mechanisms using **try-catch**.
- Familiar in java **collection Framework** including **Lists, Sets, Maps, and Queues** for efficient data management.

Advance Java:

- Familiar with core JDBC components such as **Connection, Statement, PreparedStatement** and **ResultSet**.
- Able to perform basic database operations in Java using JDBC.

Web Technology:

HTML:

Proficient in HTML, including the use of **tags**, **attributes**, **anchor tags**, **semantic tags**, **multimedia elements**, **tables** and **forms** with their associated attributes.

CSS:

- Knowledgeable in CSS **Selectors** and their types, **Box Model** and Properties of Text, **Background** and **Position**.
- Experienced with **animations**, **flex** and **grid layouts**.

JavaScript:

- Strong understanding of **JavaScript characteristics**, **JavaScript Tokens**, **Type Coercion** and Working with **Variables**.
- Familiar with core **DOM concepts** and able to **manipulate** and **create elements** using **DOM Methods** and **Properties**.
- Event Handling: Proficient in using **DOM events** like **click**, **load**, **mouseover**, etc., to create interactive user experiences through **event listeners**.
- Familiar with asynchronous programming, **Promises**, **Async/Await**, and event-driven architecture.

Soft Skills:

- Teamwork
- Time Management
- Willingness to Learn new things.

Project:

Current Stock Monitoring System with Expiry Alert

- Developed a stock monitoring system **to track inventory levels and alert** users about **products nearing their expiry date**.
- Designed the frontend using **HTML**, **CSS**, and **JavaScript** to create an intuitive and responsive user interface.
- Implemented server-side logic using **Java** for processing data and handling business operations. Utilized **MySQL** to store product details, inventory levels, and expiry dates efficiently.

.

Internships:

Web Development-IDM TechPark Erode

Attended a 15-days internship program focused on gaining basic knowledge of Web Development and acquired foundational skills in **Html**, **CSS**, **JavaScript**.

Certifications:

- Currently I am Pursuing JAVA Full Stack Development at Qspiders.
- Completed Java basic course on GreatLearning.
